Version Control :	Git & Github

PROJECT

RazorPay Clone   Click Here

In this, I build a Razorpay clone. which is almost similar to its original; it is mostly built with the help of tailwind.css for frontend project Resource utilizes: HTML, CSS, tailwind CSS.

Ochi Design   Click Here

I've created a fully animated clone of the Ochi Design website using ReactJS, showcasing my skills in front-end development and animation."

Weather App   Click Here

Developed a Weather App with HTML, CSS, and JavaScript, enabling users to check the weather for any location. Implemented features for searching current weather and forecasts by city. Demonstrated proficiency in frontend development and API integration for real-time data"

WORK EXPERIENCE

Ex - Web Developer Intern at (Cognifyz Technologies)   20/Feb/2024 - 20/March/2024

- Work with Frontend team to write logic according to their requirment and manage their application.
- Proficiency in Frontend Technologies: Through hands-on experience, I mastered the use of HTML, CSS, and JavaScript to create visually appealing and functional web interfaces.
- API Integration : Learned to integrate APIs into Web Application, broadening the functionality and interactivity of projects.

EDUCATION

2020 - 2024   B.Tech Degree at **Shriram College of Engineering and Management, Banmore** (SGPA: 7.5)
